GELATO WHOLESALE

WHY GELATO?

Established in 1931, in the South-East coastal town of Herne Bay, Kent, the Italian art of making Gelato has been passed down through the generations from father to son.

Our Gelato is handmade using only the finest ingredients (Predominantly imported from Italy) giving us a truly authentic product.

WHAT IS GELATO?

Gelato is the Italian word for Ice Cream, however it has 3 major differences:

Firstly, the fat and sugar content is considerably less than normal ice cream, making it healthier.

Secondly, the quality of our Gelato is much more superior to normal ice cream. It has a much higher density, this is because ice cream is produced by mixing milk, cream and sugar whilst adding air. Manufacturers add air because it almost doubles the quantity of their product, however it cuts the quality! Very little air is added to our Gelato and as a result we have created a much higher quality, flavour intensive product.

Thirdly, Gelato can be stored and served warmer temperature than ice cream, therefore giving it a very smooth and creamy texture.
